Published by the
SENIOR A CLASS

ANNA J. MILLER

In appreciation and thanks to Miss Anna J. Miller, our adviser, who has given freely of her time, effort, and ability in the interest of our class, we dedicate THE CHAMPION.

ALMA MATER

Since Bloomfield High has produced football teams of the highest quality and has ranked at the top of the state list during the past three years, these past achievements are honored in THE CHAMPION.

EDGAR S. STOVER

B.S., LL.B., M.A., Ed.D.

Superintendent of Schools

Mr. Stover attended East Strasburg Normal School in Pennsylvania, the University of Chicago, and Teachers College at Columbia University. Prior to becoming superintendent of schools, he was a teacher and principal here.

His policy has been to deal with all school matters in a manner which exhibited fairness coupled with firmness. He believes that good character is the supreme objective of education and of life. Mr. Stover has always demanded, in so far as possible, that worthy standards of conduct be exercised, and that the virtues that underlie excellence and happiness be practiced. He contends that the teacher's life has been dedicated to preparing the youth of the land for the responsibilities and privileges of citizenship.

JOSEPH E. POOLE

B.A., M.A.

Principal

Mr. Poole studied at Tufts College in Massachusetts, Yale University, and New York University. Before coming to Bloomfield High in 1929, he was principal and later superintendent at Madison, Connecticut.

Mr. Poole believes that the public educational system is organized to train all pupils to take their places in society. It is necessary, he thinks, to remember that every pupil is different from all others because of experiences and natural endowments; to seek every opportunity to discover and develop the strong points of each individual, and to know and correct any weaknesses. Too, he feels that students should graduate with a clear concept of good citizenship and a desire to live it.

HENRY T. HOLLINGSWORTH

B.S., M.A., LL.B.

Assistant Principal

Mr. Hollingsworth was educated at Washington College, Columbia University, and the New Jersey Law School. Previous to his present position, he taught at Middletown Township High in Leonardo, New Jersey, and also at Bloomfield High.

Mr. Hollingsworth feels that attending school, learning from books, and reciting in class are the means by which the educational process is carried on, but that the real purpose of education is to produce desirable changes in human beings, to mold their lives to the end that they may become desirable citizens and leaders of tomorrow. The safety of society and progress, according to him, demand that each individual be in his place—occupational, civic, and social—where he can contribute his best to its welfare.

FRANK J. HOCHSTUHL, JR.

*Secretary and Business Manager
Board of Education*

The duties of the secretary and business manager of the Board of Education are many and varied. Mr. Hochstuhl has to keep all of the financial records of the Board, receive all money due the Board, pay all bills as ordered, order all books and supplies, see that all school buildings and public school property are kept in good condition, supervise all repair work, and take charge of any new construction work in the interests of the Board. In short, it is his duty to generally supervise the business division of the schools in cooperation with the superintendent of schools.

ADMINISTRATION ACTIVITIES

Many changes, in both faculty and curricula, have gone into effect in Bloomfield High since September, 1932.

Twenty teachers have been added to the staff, namely: Emory A. Buffington, Virna F. Wilson, Elma M. Houseman, Marjorie G. Ely, Lucile S. Joseph, Esther S. Morse, William E. Price, Edward M. Urband, Margaret M. Dunn, Helen M. Durgom, Emily Dyal, Alice Hayward, Felix McCormick, Arthur Bramhall, Margaret Drake, Alexander S. Hughes, Helen I. Johnson, Albert Lender, Angela Reichmann, and Frank A. Furgess.

Five teachers have been lost; four: Lorena Babbitt Lynch, Elizabeth Wright Treiber, Elaine Sauvage Carnahan, and George T. Donahue by resignation, and Harry R. Koehler by death.

The number of pupils enrolled has greatly increased. In September '32 it was 1587, in '33 it was 1738, in '34 it was 1950, and in '35 the total reached 2014.

To put a little practicality into all courses, new studies in hygiene, first aid, and home nursing were added.

There is now only one class in technical chemistry, acceptable in all colleges. The general chemistry, recognized in a few colleges, has been arranged for the adaptation to individual interests of the pupils.

Realizing the fact that, to even a future college student, typing is desirable, one year in this subject is, at present, available to everyone.

Since the instruction in general math now omits much abstract and visual work, the sections have increased until now there are six.

It is compulsory for all students to take three years of social science.

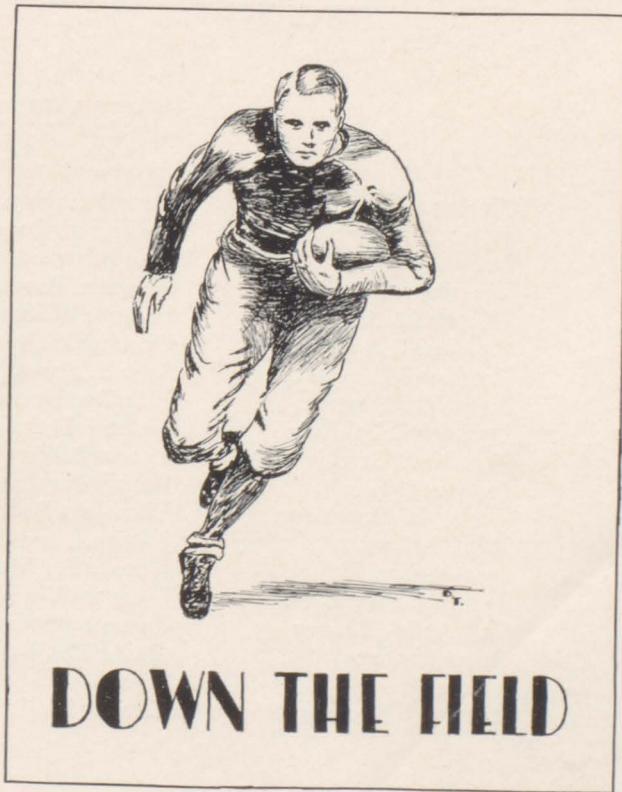

Boys' gym training has been reorganized on various ability levels rather than class progress. Each boy is given a special test for placement in a class. The girls also have a special class. Part time help in both gyms has made possible the use of every period.

A room has been made over so that the band may have group instruction.

At this time all back-stage work is handled by the stage crew under the direction of a faculty adviser. The boys are responsible for the use of the stage and equipment for all auditorium activities.

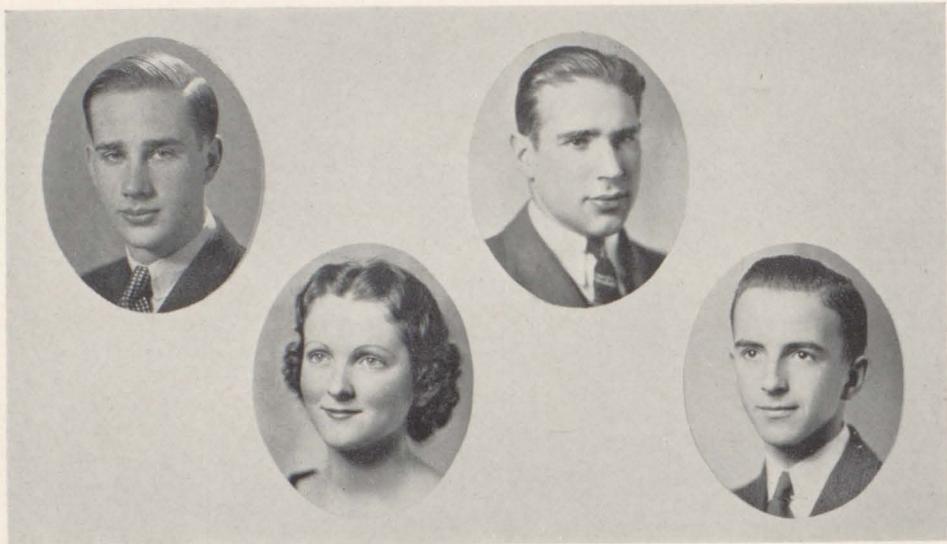

Because of the large number of pupils, it has become necessary to divide the assemblies, the freshmen and sophomore B's meeting together, and the rest of the school holding joint programs. All standing is thus eliminated. Too, all study periods are held in the auditorium.

The talent of the school has been organized during the last year and a half to present entertainment during part of the lunch periods. These programs were held in the auditorium twice a week.

FLORENCE ACKEN

Flo never has much to say, but then people who talk too much often get into trouble. She likes and appreciates opera and all good music, as is witnessed by her participation in two of our melody organizations. When Florence is not studying this fine art, you may be sure she's reading.

French Club, Girls' Glee Club, Mixed Glee Club

HELEN J. ADDISON

Irvington High suffered two obvious losses in the fall of '35, not only when the football eleven bowed to the Bengal gridmen, but also, when Helen decided to complete her senior year at B. H. S. We have been very happy to accept her into our ranks, and hope she has enjoyed her short stay here.

PARKER ALLEN

Who is that tall, sandy blonde Apollo about whom all the girls are talking, and of whom every boy is envious? Why, of course, it's none other than our handsome Park, one of the most modest of all the gallants and heart throb-boys in Bloomfield.

President—Chemistry Club, Treasurer—Latin Club, Photography Manager—*The Champion*

THEODORE ALTOZ

Appearances are often deceiving, so don't believe that Hotty is a quiet fellow—his friends know differently! Theodore's activities in school have not leaned toward sports, but baseball and football with the Saint Valentine Athletic Club take up a great portion of his outside time. He also manages to devote some interest to the hobby of stamp collecting.

THELMA M. ANDERSON

Presenting Telly, another one of our "silence is golden" girls. Her favorite pastimes are swimming, walking, and reading, and too, she spends much time in religious work, belonging to the Girls' Club and the Young People's Christian Endeavor of the Brookdale Baptist Church. Look for Marjorie Jagger or Eleanor Voorhees, and you will certainly find Thelma.

CHARLES H. ANGSTADT, JR.

Punster Charlie with never a care in the world! Undoubtedly Doris has something to do with his ever-sunny disposition and happy smile. Is she also the inspiration for your fine work in extra-curricular offices, Charlie?

Treasurer—Sphinx Society, Hi-Y, Band, Orchestra, Chemistry Club, Chairman—Junior Prom Committee, Chairman—Senior Play Business Committee

The Champion

LORRAINE M. ARMSTRONG

When a crowd is gathered around a locker outside of 107, you will invariably find Lorry in the midst of the group. Her winning personality, striking black hair, and snappy dark eyes have made her a favorite with the seniors, not to mention the freshman boys.

Girl Reserves, Senior Play Committee, *The Champion*, Red Cross, Student Council, Junior Gym Team

HARRY W. BAKER

Here's a very talented musician who directs a choir and sings in the local Christ Church. He was a soloist in the Crusade Union Boy Singers that sang at the World's Fair in the summer of '34. This young fellow delights in giving puppet shows and has shown many of the popular marionette productions.

The Student Prints

DOROTHY E. BALDWIN

Pennies, nickels, dimes, quarters, and sometimes dollars—that's our proficient head banker counting the weekly savings for Mr. Boomer. It's not every commercial student that can acquire such an esteemed position! To add to her versatility, Dotty revels in cooking and sewing, and makes many of her own clothes.

Chief Banker, Home Economics Club

STEPHEN BATICH

In the middle lap of our four-year course, Steve joined our numbers. Hailing from Newark Art School and South Side, he admits that although he misses track, he is very fond of Bloomfield High. Steve plans to spend a year in the Navy and then enter Annapolis. Smooth sailing, sailor!

Chemistry Club, Chess Club, Basketball Team, Swimming Team

EVELYN M. BERGMANN

Perfection in all she undertakes is Eve's aim in life. As a commercial student, she has shown proficiency in dictation and typing. Where Anna Bondar and Dorothy Lou Willets are to be found, Eve is sure to be near at hand. In the fall she plans to enter business college.

German Club, Home Economics Club

RUTH O. BETTS

Secretarial school is the next stepping stone for Betts, then on to bigger and better positions, for nothing stops this conscientious little lady. That determining characteristic explains why we find Ruth at the top of the ladder when it comes to school activities.

Girl Reserves, Junior Gym Team, Student Council, Student Patrol, Girls' Glee Club, Girls' Aquatic Club

PAULA BEYERSDORFER

Folks, may we present our modest dressmaker, who spends many hours in preparing her wardrobe. Perhaps this helps to account for Paula's attitude that the woman's place is in the home. To hear her talk on family problems in P. D. class, you would undeniably agree that from her understanding of these situations, she will make an ideal wife.

Hiking Club

JOSEPH J. BIESIADECKI

Many a ripe banana and a few green ones were eaten by Joe in the senior play, but we know each one was a delicacy to the class treasurer. The road to success is open to you, Joe, but we're afraid those following you on the highway will find going a bit slippery.

Senior Play, Class Treasurer, Senior Play Committee

CAROLYN M. BLAMEY

A grand sense of humor is Carolyn's main asset, and she can always be depended upon to relieve the tension of classes with her droll remarks. Her work in the Carteret branch library has brought her into closer contact with one of her preferred recreations, reading.

Girl Reserves, Girls' Glee Club, Sphinx Society, Student Council, Girls' Aquatic Club, News Editor—*The Student Prints*

ANNA BONDAR

This wee lassie is another product of the commercial department. Excelling in shorthand and typewriting, and bringing home all-round good report cards every six weeks, Ann is proving that she is a personality well on the way. Her present aspiration is to continue studying at a near-by business school.

The Student Prints, Student Council

ALBERT BOOTH

Stand by, station W2HMK, Al Booth, owner and operator announcing. These words are familiar to many radio amateurs—not of the gong type. As well as being an accomplished radio serviceman, he is a member of the Bloomfield Radio Club and the American Radio Relay League. Clear the air waves for Al!

Chemistry Club, German Club, Cafeteria Dancing Committee
Technician

EDWARD J. BOROWY

Another member of that already famous Borowy family, and yes, he plays baseball, too! Bro is also interested in football and basketball, and is adept at fooling around with amateur radio. After graduation he wishes to use his high school training in securing an important executive position in a big office concern. Go to it, Bro!

==== The Champion =====

KENT BOUGHTON

Ken's drawling Indian accent—as he calls it—came with him all the way from Indiana. Daily after school he dons a cap and a pair of overalls for a hard afternoon's labor in a garage. If Ken does not enter a vocational school, he will follow the path of all ambitious young men—that of job-hunting.

FRANCES N. BOYD

See that smooth roadster whizzing by. Ten to one, Francie, who came to B. H. S. from Brookside school in Montclair, is driving it. This attractive young lady will long be remembered for her always perfectly groomed blonde coiffure. She has a weakness for globe-trotting, smart clothes, and a certain light-haired swimming ace.

Girls' Glee Club, Senior Play Make-up

JANE BRITTAINE

There are not many activities in our school which have not felt the influence of Jane's charming personality, energy, and capability. In the summer she's kept busy running a nursery school, and in the winter helping Brownies to become Scouts.

Girl Reserves, Sphinx Society, Girls' Glee Club, Student Patrol, Junior Red Cross, *The Champion*, Washington Trip Committee, Senior Play Prompter

MARGARET BRODERICK

Big brown eyes characterize our Peggy. When this pretty brunette is not with Jane Gleason, she can be found playing the piano, except when she steals away to write to a certain mystery man at Holy Cross—woops, was that a slip?

Chemistry Club, Student Council, Girl Reserves, Head Typist—*The Champion*, Senior Play Committee

BEATRICE BRODO

A wisp of a girl with a contagious giggle, and the possessor of great intelligence—that's Bea, the first three and a half year student on our list. This efflorescent miss claims that one of her greatest interests is playing bridge. Is it auction, or do you go in for the more popular contract, Bea?

French Club

DOROTHY H. BROWN

Brownie is best known for her dancing. She has been a student of tap and toe for the past eleven years, and has performed in many school entertainments. For the next year she intends to practice diligently and study her toe dancing, which she hopes will lead to a professional career.

Chess Club, Girls' Glee Club, Girls' Aquatic Club

JOHN P. BROWNLIE

From the land of Sleepy Hollow at North Tarrytown, New York, Duke, president of the sophomore class there, came to us an experienced leader, and we are glad to welcome him. He has no definite plans for the future, but we feel that some day he will wander back to the home of the headless horseman.

J. LE ROY BRUNS

Introducing a member of that exclusive society, the three and a half year celebrities. Lee, unknown to many of his colleagues, is a very able poet. You should hear him rattle off love lyrics. After leaving B. H. S., this chap expects to completely revolutionize the insurance business. Happy bargaining, Mr. Bruns!

Boys' Glee Club, Spanish Club, Student Patrol

HELEN J. BRZEZINSKI

Soft winds will grace New York next fall, for our own Breezy plans to study dental nursing at Columbia University. At present she is kept busy as a member of her church choir and Young People's Club. We feel that the gentle gale from Bloomfield will take our neighboring state by storm.

Junior Gym Team, Girls' Glee Club, Chemistry Club

ROBERT BUHBE

Our contribution to the scientific world is Bob, who skipped a term to graduate with us. Deeply engrossed in the study of chemistry, this miracle worker is establishing himself as another Einstein. Furthermore Robert lends his talents to the Bloomfield Symphony Orchestra in which he is mastering the violin.

Treasurer—German Club, *The Student Prints*, Orchestra, Chemistry Club, Swimming Team

SOPHIE BURAKOWSKI

"A-S-D-F—space—" echoed from one of the third floor rooms, but that was a long time ago when Sue was just beginning to learn the knack of typing. Now that four years in B. H. S. are almost a memory, she will soon be clicking the keys of a Remington Noiseless in someone's office.

The Student Prints, Home Room Banking Agent

ELLEN JEAN BUSH

Much praise goes to Ellen Jean, who all during the spring vacation struggled over 215 minute senior sketches. Was it the inspiration of Pluto, the toy dog, Mark Anthony, the plaid mutt, and Oswald, the play-boy cat, that led to these biographical notes?

Associate Editor—*The Champion*, *The Student Prints*, Chemistry Club, Girl Reserves

==== The Champion =====

MILTON J. BZDEK

During Biz's sojourn at Bloomfield he has managed to keep up a good scholastic record, even while working after school in a grocery store. Yet he finds spare moments to indulge in baseball, swimming, and reading. Looking into the future, Milton hopes to see a promising position which will enable him to enter night school.

Student Council, Home Room Banking Agent

DONALD P. CAMPBELL

Keats and Shelley had better look to their laurels when Don, our talented Beau Brummell, really gets to writing. Many of his literary works have already been published. We're willing to wager that in the not too far distant future, Don will put our alma mater on the map.

Hi-Y, Chemistry Club, Student Council, Math Club

ELEANOR CAPRIO

A genial nature and a captivating smile have made many friends for this athletic young lady. Cap was a star of both the girls' basketball and baseball teams. The class feels sure that the good sportsmanship she has always practiced will benefit her in the future. We're with you, Cap!

Student Patrol, Italian Club, *The Student Prints*

RAYMOND F. CAREW

All that Zook, the proud owner of one of the oddest nicknames in the class, can say about high school is that it was fun while it lasted. Notice that he does not refer to the scholastic part. Ray did his bit as a member of the chorus of *Skip Aboy*, the musical comedy of freshman year.

DAVID H. CHARLES

We know that Parson has the wanderlust in his veins, for he has visited forty of the forty-eight states. In his journeys, he has encountered strange people and experienced many uncommon thrills. Just get him to tell you about them. David plans to head south-west after graduation, and spend most of his time along the Gulf Coast.

ALICE D. CONLON

Few of us know Alice well, but we all recognize her ability from her work in class. Because of her sedateness, she is not heard in our noisy group. We're ready to admit that Al will get ahead; her diligence, sincere purpose, and sheer determination will undoubtedly lead her far in this industrial world.

Spanish Club

ELEANOR M. CONROY

The most valuable treasure El possesses is her friendship with Alice Conlon, who has been her most intimate associate for more than twelve years. It is only fitting that these two girls should be together in *The Champion*, as they have been with each other in everything else. We hope they remain life-long pals.

Spanish Club

WILLIAM F. CROWE

You can always be assured of a cheerful smile when you pass Bill in the hall. He has had the good fortune to travel throughout the United States, Canada, and Mexico. Although he is uncertain about his coming plans, it is safe for us to prophesy that a trip to foreign lands will be included in Bill's next itinerary.

EDWIN DAHL

"Go west, young man, go west," Horace Greeley once wrote. Dahly intends to follow that advice, since after his three and a half year high school course is completed, he hopes to go out to Montana and work on his aunt's farm. Meanwhile he is spending many of his spare hours in tinkering with motors and other mechanical devices.

MAY G. DANNER

A good mixer and a ready helpmate is May. She represents the type of graduate Bloomfield is proud to have, because she has such a well-rounded background, with good marks, many extra-curricular duties, and outside interests.

Secretary—German Club, Student Council, Math Club, Chemistry Club, *The Champion*, Sphinx Society, Girl Reserves, *The Student Prints*

JOHN J. DAUSTER

"Six feet long and six feet under" will very soon be Dusty's code. He plans to devote the remainder of his life to making corpses contented, for our handsome John is planning to be a mortician. We wish you loads of success, Dusty, even if we're not over-anxious to patronize your business.

Happy-go-lucky with a good word for everyone—describes Doug. He's our idea of a real sport in every sense of the word! A baseball and football enthusiast and an amateur photographer are appellations easily associated with his name. Doug has made a niche in our school life which no one else can occupy.

ROY Q. DAVIDSON

"As ye sow, so shall ye reap" is Roy's philosophy for living, and what sound reasoning it is! Love for the outdoors is a part of him, who seems to be hidden beneath such an unassuming manner. Roy's good judgment and understanding will greatly benefit him in any field he may endeavor to enter. Good harvesting, classmate!

EDWARD F. DEAN

Rat-a-tat-tat, rat-a-tat-tat, beat drummer Ed as he many a time marched down the athletic field during the halves of those stirring football games. Bloomfield High is not the only place to recognize Ed's skill, for he is also highly recommended by the Fife and Drum Corps of Sacred Heart Church.

CHARLES DE PIANO

Yes, you've guessed it; his name gives him away. Charles, all wrapped up in his music, is an accomplished student of the violin, clarinet, and saxophone. Next fall he's going to start working his way through the Damrosch School of Music by playing the sax. You'll make the grade, Charles!

Rare stamps from Bavaria, Nova Scotia, Latvia, India, and Hungary are fascinating to this philatelist who passes away many hours at his hobby. We'll bet, however, that George understands the American stamp language best, because he likes to receive letters with the stamp upside-down. It's most expressive, isn't it, George?

Note: An inverted stamp means "I love you."

IRENE EHRMANN

We'll pin it on her now! Irene's one of that famous triumvirate columnists of *The Avricle*, who for the last year has insisted on Win-chelling Mr. Price. We think he likes the notoriety, and he's received some red roses in the bargain, too.

EDWARD FLORCZAK

Three guesses who the nucleus of that throng of girlish admirers in the cafeteria is. Can it be Clark Gable, Fred MacMurray, or is it Eddie Florczak? With such wavy hair and such a likeable manner, it's little wonder the last-named Lochinvar makes a big hit with the Bloomfield lovelies.

As a jovial jester of jollity, Lee's name is always coupled with that of Edna Richter. Her activities, so she states, center around nothing but homework but, according to us, art, mystery thrillers, humorous books, motion pictures, radio programs, and stamp collecting more than neutralize the hard drudgery, and leave the balance on the credit side.

JOHN C. McGRATH

Maybe John's interest in that famous winter sport, tobogganing, started on a snowy day several years ago when Mrs. McGrath lost her dishpan. Perhaps mother's lost domestic utensil was serving as son's sled. When the icy strains of winter have vanished, and when the summer's fishing and swimming are gone, then Mac puts on a jersey to play with a semi-professional eleven.

HELEN M. MCNEELY

An alert young girl of today, very fond of Bloomfield High, is Mickey. After her course at Montclair State Teachers College, which isn't very far distant, is finished, she would like to teach mathematics in her alma mater. Would you object to instructing freshmen, Helen?

Earnestness and the willingness to oblige have earned a host of friends for Bucky. He and his friend, Charles McConnell, form a strange pair; one, so subdued and modest, the other so—shall we say clamorous? However, John's retiring nature hasn't hindered his school activities or class spirit.

Baked beans and Bunker Hill are the things an average person associates with Boston. But not May. The Hub city on the Massachusetts sea coast holds a very special interest for her. We're willing to bet that soon our metropolitan town will lose a resident, and a certain New England city will be the gainer.

STEPHANIE MURAWSKI

Here we have Stephanie Dorothy Murawski; yet strangely enough she is known to all the Bloomfield boys and girls as Estelle. This youthful typist is vivacious, free, and happy, when a tennis game's in view, and she's not the type that refuses to spend an evening in dancing. Estelle is bound to click.

If the object of your affection dances on your feet, and you emerge from the ball room with throbbing corns, Walt won't mind. It means business for a chiropodist. He won't give sore feet to his girl though, for he doesn't dance. Before very long an Illinois college will present this boy with his doctor's degree. Watch your footing, Walt.

HAROLD J. MYERS

"I've got a bite!" No, you're wrong, the mosquitoes aren't bad, it is merely Chick, who felt a tug at his line after hours of patient waiting. He spends much of his freedom in hunting, as well as in fishing. Next year will see Harold in Syracuse University, where we know he will get along.

Blonds from out of town approve of this girl, picked as the most bashful and the laziest of the seniors. Dottie's anything but timid among her friends, and as for lazy—we don't believe that! It's her easy-going, slouching walk that gives that semblance to the demure young lady.

ANN REID

What an enticing girl, and what a well-liked graduate! Nancy is rather new here, and it is only recently that we have really come to know her. She is still partial to her former alma mater, Kearny High, with its swimming pool, but we are ever so glad to include her as one of us.

WALTER REZINSKI

"If at first you don't succeed, try, try again" applies to Cutie—so he has been appropriately named. Walter, does this have any reference to your stealing of belles, especially an Ann? Working hard as a typist or a bookkeeper in some business firm will keep you out of mischief in the near future, friend.

EDNA RICHTER

A senior entertaining sophomores—that's referred to as robbing the cradle, Ricky! This former Hillside resident intends to enter one of the two very popular fields for women—the nursing profession. Eddie will soothe fevered brows, and we're willing to wager her patients will have little desire to get well and leave the scene of such care.

ALTHEA M. RITSCHER

Another blonde, and an attractive one, too. Besides being ornamental, Al is a worker, serving on almost every committee necessary for the functions of our class. We'll long remember her portrayal of the daughter in our senior play.

But best of all, she likes driving that long low roadster of hers around the neighboring country-side. Happy motoring, Lil.

MURIEL SCULTHORPE

Probably the newest member of our senior family is Muriel, who left Bayonne less than six months ago. Bet the Glee Club and Girl Reserves there miss her, but we're ever so glad that she decided to graduate here in Bloomfield. She was there a true bearer of the light, and raised the Girl Reserve standard also in this school.

We're not saying he's been influenced, but it looks that way, for the convalescent says his hobbies are visiting nurses, dancing, and girls.

DOROTHY SMITH

Good natured Dot. She's the girl whose hair was scrutinized for weeks by all of our high school students; watching; waiting. You may recall she won a permanent wave at a fashion show sponsored by *The Student Prints*. But Dot gave her prize to Ruth Fielding, so we were watching the wrong coiffure.

He shares his interests with chums, Edward Borowy and Walter Murawski. That explains his counting baseball and football as among his amusements.

JANE VAN NESS

Just another dare-devil who's high-minded is Jane. We imagine that she and Mildred Lawrence have been collaborating on a future, and have decided to entertain air passengers together. You'll be serving us lunch soon, Jane, while we're flying to the West Coast in a new T. W. A. plane.

ELEANOR E. VOORHEES

The words, thoughtful and somber, fit Ele to a "t". As one of the class honor students, she has held a high place in our estimation, and it is with pleasure, that we see her go out to become a laboratory technician. Miss Smith will vouch for Eleanor as an up-and-coming scientist.

A TOAST TO ANNE M. SMITH

A familiar figure with her distinctive crown of white hair, understanding smile, and kindly eyes; the organizer of *The Student Prints*, and for eight years, its adviser, administering verbal sedatives as needed; red-blooded critic and idea inspirer; entrepreneur in the planning of commencement programs; a forbearing, though not over-indulgent teacher, possessing the unobtrusive diplomacy and rich sense of humor that win high school pupils; warm in all human interests, thus experiencing life in full measure.

We of the class of June 1936 are proud to be able to think of her, not only as a teacher and as a friend, but also as a fellow-graduate.

HIGH LIGHTS

June · 1936

METAMORPHOSIS

It was on September 7, 1932, that we were first heard inside the already bulging walls of B. H. S. Miss Miller was soon presented to us as adviser, and the presidential campaign was started. Earl Hofter won the first election by a nose, but his scholastic standing dropped so low that we were forced to hold another ballot. Russell Leitz led in this, because he was the most mature. He, however, later left—presumably to vote.

Since secretary Marion Fabinski absconded with the copious minutes, detailed information is lacking as to the early class activities. We do recall our first dance—remember the posters? "Support the Freshmen—You Were a Freshman Once!" We are proud to say that this business enterprise did not put us in the red; on the contrary, it brought in a profit of \$00.05, jacking up the total increment in the treasury to \$1.06.

The other great social function of those days was the freshman reception. Invitations in five languages were issued, refreshments were served, and the teachers were exhibited to the interested parents.

It was on September 8, 1933, that Richard Struble took upon his able shoulders the guidance of the herd, and Louis Otterbein became vice-president. Owing to the staggering influx of dues, Joseph Biesiadecki and Helen Mueller were appointed joint treasurers. Beatrice Lynch and Louise Marsh tied for secretary, but the final decision was set aside for the next meeting.

On September 25, 1933, Louise Marsh became secretary. Home room collectors were appointed at this time, the payment of dues having increased steadily, of course.

In February another "brief but important" meeting took place. Again dues were discussed and a motion was made that we attempt to supplement the \$117.01 in the treasury. It was suggested that we either present prizes to those who had all their dues paid up, or make money selling movie tickets. At last someone proposed that we sell notions. The novelty of this immediately struck all, and Althea Ritscher was unanimously appointed head of the committee. The delinquent members of the class were to do penance by selling pennants.

By April 9, 1934, the combined efforts of the penitents had brought in exactly \$5.35. A candy sale had netted \$21.15. Feeling that the condition of the treasury would make such a venture safe, we held another class dance. Students were enticed into coming by the large amount of publicity, announcing: "Something New! A Cabaret Dance". There were floor show and refreshments. Altogether it was a great success—a clear \$25.00 was made.

A meeting was held on May 14, 1934, at which we gloated over our great triumph. We determined to continue with the pennants. Our sophomore year closed with the non-reaction to the urging of payment of dues.

===== The Champion =====

A balance of \$202.81 was reported at the September 12, 1934, gathering. There was some discussion concerning the one cent. No one would admit it, but we concluded that it had been donated by a well-wisher who preferred to remain anonymous.

Charles Angstadt headed the junior prom committee. On December 26, the great ball was held in the Glen Ridge Woman's Club. The bevy of chaperons said that they had a very pleasant evening.

The exchequer on March 25, 1935, contained \$281.91. Helen Mueller was appointed to the position of secretary, vacated by Louise Marsh. Althea Ritscher presided over the newly-made senior play committee. Joseph Lyons headed the dance committee.

Ten dollars was lovingly handed over to the library for books on April 30, 1935. The senior play was mildly considered, and the dues question discussed from the "eventually—why not now?" angle. This precipitated the momentous decision that dues must be paid!

On May 22, 1935, our junior dance was held—a semi-success. When the box office receipts were carefully counted up, they were found to amount to exactly twenty dollars—with the professional orchestra still to be paid.

The most suitable plays were submitted to a vote on September 18, 1935, and after a heated exchange of views and some vituperations *The New Co-ed* emerged victorious. At a later meeting *Big Hearted Herbert* was found to have superseded the original choice to the wonderment of the class in general. Miss Joseph was requested to act as coach.

The senior play of November 15-16, 1935 was even better than we had expected. The money returns were most pleasing to the eye, and the actors and actresses are certainly to be commended.

March 23, 1936 marked the high point in class meetings, surpassing even our usual gatherings in violence. Vehement denunciations whizzed through the air, striking whom they might, and seniors right zestily demonstrated their mastery of the art of vilification. At length Miss Miller withdrew. Mr. Poole took the situation in hand, and peace was soon restored.

That long-awaited day of May 7, 1936 finally came, and forty-eight patriotic boys and girls left to see their country's capital. In Washington they spent three full days in the methodical and comprehensive study of governmental affairs.

With the commencement preparation and the initiation of the thirty-first and last dues-drive, we review with mixed feelings our high school career. "With malice toward none" we go out into the bold, bad world, where we shall no longer be sheltered by loving parents and sympathetic teachers.

BIG HEARTED HERBERT

Here are the thirteen budding ham-lets who lifted the play into the realms of higher drama:

MRS. GOODRICH—Jean Hoff. My, did she scintillate!

MR. GOODRICH—Robert Hansen. Bob played the gentleman displaying his dormant culture.

MR. HAVENS—Walter Smith. He ate apple pie and singed stew on Friday night.

MRS. HAVENS—Dorothy Fisher. She distinguished herself by her graciousness and charm.

HERBERT KALNESS, JR.—Richard Honaman. The hard-working, ambitious, future engineer.

MRS. KALNESS—Helen Mueller. By the end of the first act she had kissed everyone in the cast except the Irish maid.

MR. KALNESS—Charles McConnell. Big hearted Herbert himself! An iron-fisted despot, he called for his cuspidor with the lung power of a stentor.

ROBERT KALNESS—Joseph Biesiadecki. "Yes, we have no bananas." Didn't Joey look sweet in knickerbockers?

ANDREW GOODRICH—Richard Struble. The shrinking violet who bashfully wooed the sparkling Alice.

ALICE KALNESS—Althea Ritscher. She owed it all to the new white dress that Mother Kalness made.

AMY LAWRENCE—Janet Kopf. The big-hearted gentleman's sister-in-law. And did she put him in his place!

JIM LAWRENCE—Joseph Lyons. He played Herbert Jr.'s fairy godfather in the guise of a Harvard man.

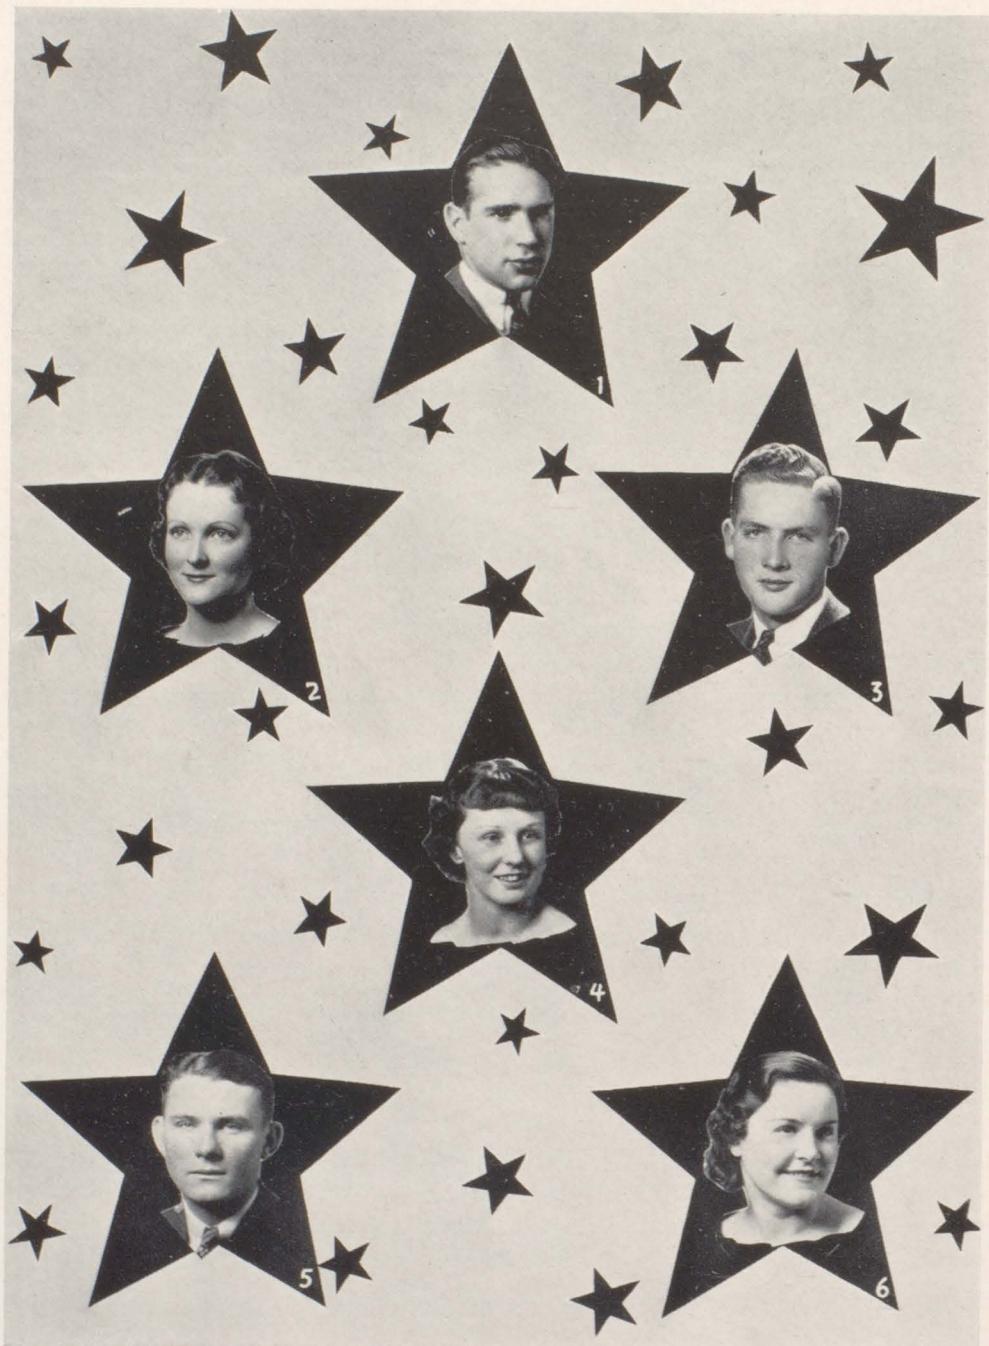

MARTHA—Doris Morton. Remember the brogue and the brogues of this winsome Irish maid?

ON TO WASHINGTON

After fond farewells and warnings from various members of the faculty, as well as from students, forty-eight rejoicing seniors and three chaperons left for the nation's capital. Upon our arrival at Union Station, four hours later, we were ushered without ceremony into waiting buses. A group picture was taken in the shadow of the capitol, followed by a guided tour of that building; a few foolish ones climbing the three hundred and sixty-five steps to the dome. Our next venture was a journey through the Congressional Library, where the Declaration of Independence and the Constitution of the United States are displayed. We then found peace, quiet, and food at the Hotel Martinique, where we kept in close contact with our classmates through the windows which opened upon a court.

That evening enjoyment was found in the gayer spots of the city. A party escorted by Mr. and Mrs. Buffington spent the evening at the Café La Paree, returning about two o'clock. But it was much later that the hotel was composed and quiet.

It seemed that we had only climbed into bed when the telephone rang announcing breakfast. A sleepy crowd started for the Bureau of Engraving, and because no samples were received, a disappointed group left for the Washington Monument. The remainder of the morning was spent visiting the Pan-American Union Building and the White House. After lunch we took a refreshing bus ride to Mount Vernon, stopping for a while at the Rock Creek Park Zoo, the largest in this country. On the way home we visited Washington's Lodge in Alexandria; our day of sight-seeing was completed at the Lee Mansion in Arlington Cemetery.

Early Saturday morning we left for Annapolis to visit the Maryland State Capital and the United States Naval Academy, the home of the midshipmen and marines. We returned to a lunch of left-overs, then packed our bags. A banner was unfurled from room 501 in honor of our departure. This emblem was tactfully named "the music roll".

Envious Bloomfield students bade Miss Miller farewell at the station, wishing that they too might linger longer in the beautiful city of Washington.

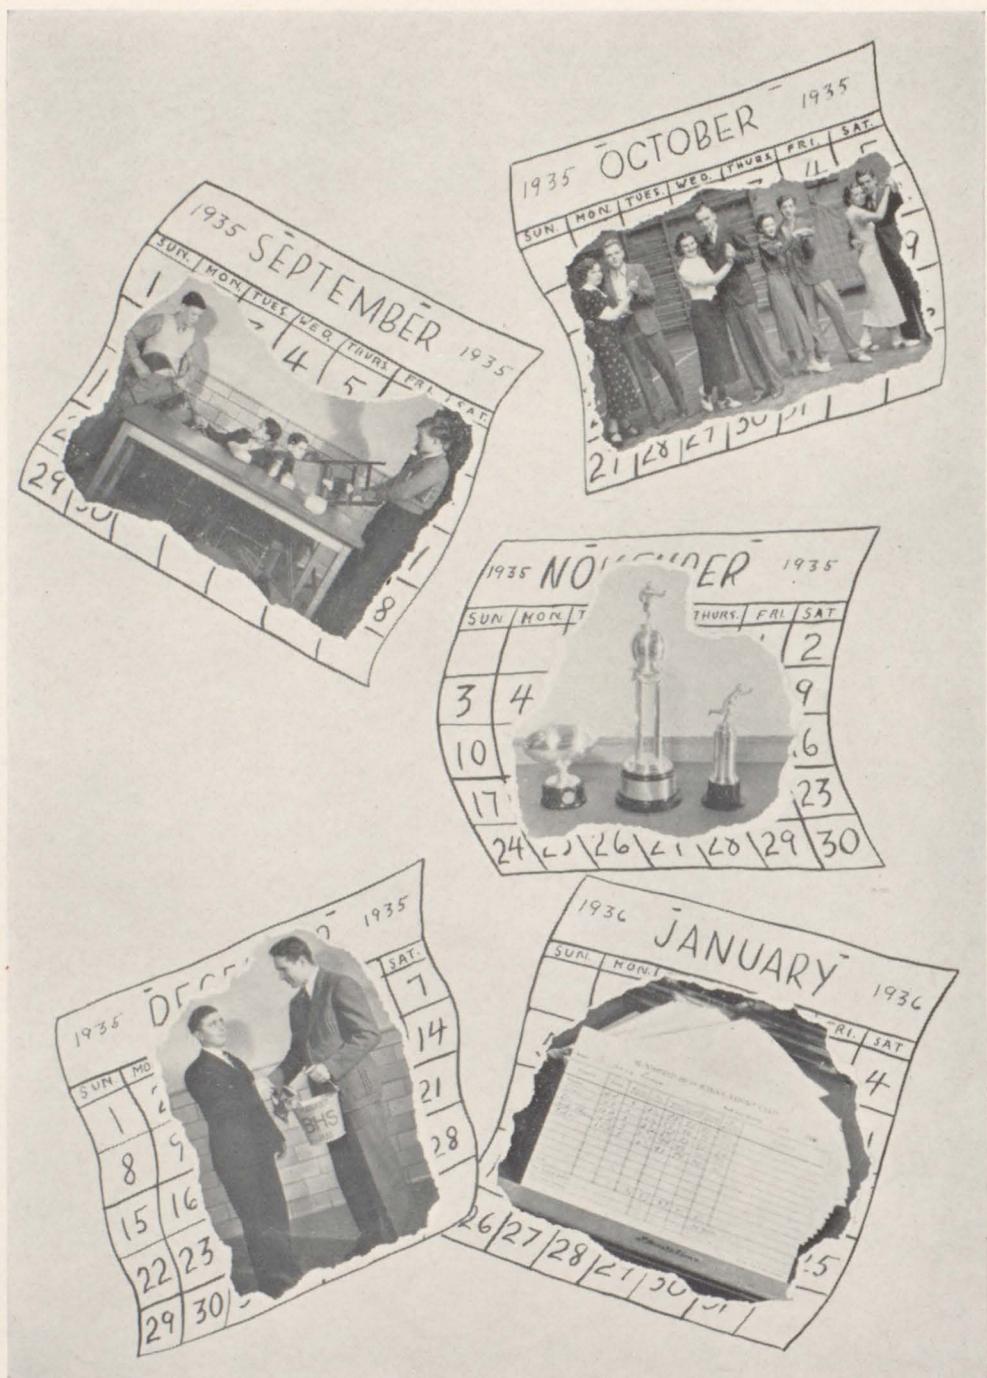

We feel sure that those who spent May 7-9 of 1936 in the District of Columbia will never forget the wonders of our capital, the eventful journey on the Baltimore and Ohio, and the tantalizing "hee-hee-hee-ha-ha" of our own Muriel Smith.

GUESS?

Upon her name do not be rough,
If you don't know how, she'll be in a hough.

Ah there, Gracie, now scintillate,
Tell us of goiter—give reasons, eight.

This handsome young man is a real heart swiper;
They love 'im, he leaves 'em
Hughes is a viper.

English students may take warning,
When her blackboard goes in mourning.

Though some with spoons may their mouths adorn,
With a silver club in hers she was born.

If a maniac you should meet,
Would you tell the truth or run down the street?

Quiet, modest, and demure,
He's ninety-nine hundredths percent pure.

You'll find her patient, good, and kind,
Except when someone hasn't signed.

Hic, haec, hoc, huius, huius, huius,
Qui, quae, quod, cuius, cuius, cuius.

Be not frightened by his bellow;
He really is a pleasant fellow.

How can you pass, Bellette McGrk,
If you will never do your work?

If to see him your mind disposes
Inquire after the Price of roses.

To what heights she may not aspire,
She reaches E or even higher.

No romance in choosing a wife—
Watch your step; you're in for life!

William L. Foley

It is unnecessary to mention the brilliant glories which have come to our alma mater through the sterling efforts of William L. Foley. Everyone is familiar with the great teams he has produced. Because of his coaching ability and keen sense of sportsmanship, the athletic triumphs of Bloomfield High have risen to an incomparable record of magnificent achievement.

As a gifted, dynamic leader and a peerless builder of character, we shall always remember Coach Foley.

Charles Venner

Coach Foley has been ably assisted in his arduous task by Charles Venner. He, a former member of one of the stellar Bengal elevens, has taken an important part in the production of high calibre players.

Along with Assistant Coach Venner's other duties, he has had the difficult task of scouting the opponents in order that he might tutor the Tigers in their plays. We sincerely appreciate his work during the past four years.

Felix McCormick

As another renowned athlete here, Felix McCormick has played an equally important part in his help to Coach Foley. It was he who ably aided in instructing the backfield.

By him the members of the squad have been instilled with a fighting spirit and good, clean sports' skill. B. H. S. is greatly indebted to Assistant Coach McCormick for the invaluable place he has held in the splendid showing of the local boys.

In the inauguration of a victory season, Bloomfield humiliated East Side with a score of 34—0.

A second triumph was achieved, when the fast-moving local eleven tucked away a 52—0 over Lyndhurst. The Bergen County gridders were completely outclassed.

When the whistle blew ending the next contest, the weak Belleville team marched off the field, after submitting to a tanning of 33—0.

The Sunny Siders of Newark were given a great surprise, as they suffered an eclipse of 49—0. Four of the touchdowns were made by thrilling long runs.

The Bengals rolled their total points up to 208, when they ran wild against Paterson Central. The silk city boys fought valiantly, but the town aspirants were too much for them, and the score-board read 40—0.

The Essex County boys scaled new heights at the setback of Dickinson to the tune of 33—0. Twelve thousand fans witnessed the crushing defeat of the Jersey City players, where line bucks featured the classic.

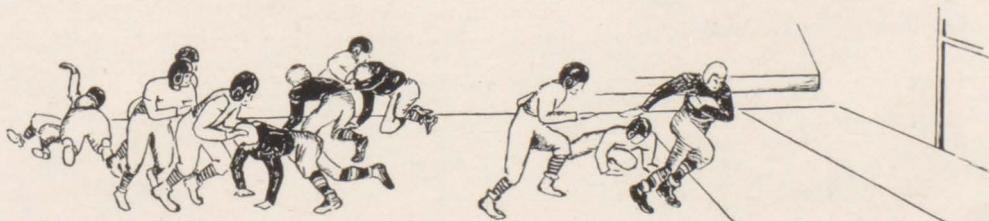

Showing no signs of a let-down from the previous game, the little Jersey Tigers scored a decisive victory of 26—0 over Garfield. Many uncompleted passes were thrown by the visitors.

The following Saturday, Irvington and Bloomfield, two undefeated elevens, provided the most spectacular tilt on schedule. The B. H. S. steam roller crushed its opponent with a 19—0 before 18,000 enthused spectators. A run of 94 yards for a touchdown was the peak of the fray.

Weakened by a heavy opponent list, the champs struggled through Nutley by the narrow margin of 12—6. The two groups fought desperately from the opening whistle to the final blast, closing the contest with the lowest score of the year.

After a considerable degree of rest, the stalwart gridmen outclassed Montclair in all departments with a 53—0, bringing the successful ten-game season to a grand finale.

Edward Berlinsky was picked out as quarterback on both the All-State and All-American High School teams.

B. H. S., majestic champion of the preceding year, met its Waterloo when it was beaten 6—0 by the Garfield eleven.

In the next game the red and gray opposed the East Siders. Although the boys from Newark had an all-veteran array, they were smothered 20—0, when the eager Bengal machine clicked in a ready come-back.

The Belleville Yellow Jackets met a 21—0 defeat on a muddy, rain-soaked field. The blocking of eight of the Bell-Boys' kicks was a high-light of this battle.

Columbus Day found the champs again triumphant. The Sunny Siders made a woefully weak impression on the little Tiger's fore-wall, as indicated by the score of 38—0.

Bloomfield raised another banner of victory when the Paterson Central squad was outsmarted 26—8 on a dusty field. The Colt Hill gridders displayed much skill in passing throughout the combat.

Unable to gain through Dickinson's line, a short pass in the third quarter decided this contest in favor of the Bengals by 6—0.

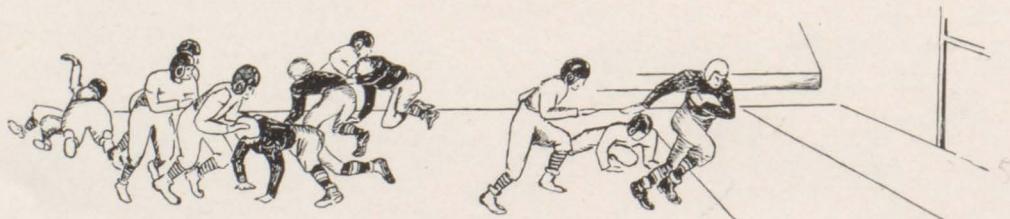

The Bloomfield gridmen chalked up a victory of 18—0 through their smart aggression against the Irvington Camptowners. The home town fellows showed no let-down of a gaining offense in the forty-eight minutes of play.

The hungry, local boys devoured Nutley with sixteen first downs on the menu. The 38—0 score was the largest inflicted on the maroon and gray opponents in fifteen years.

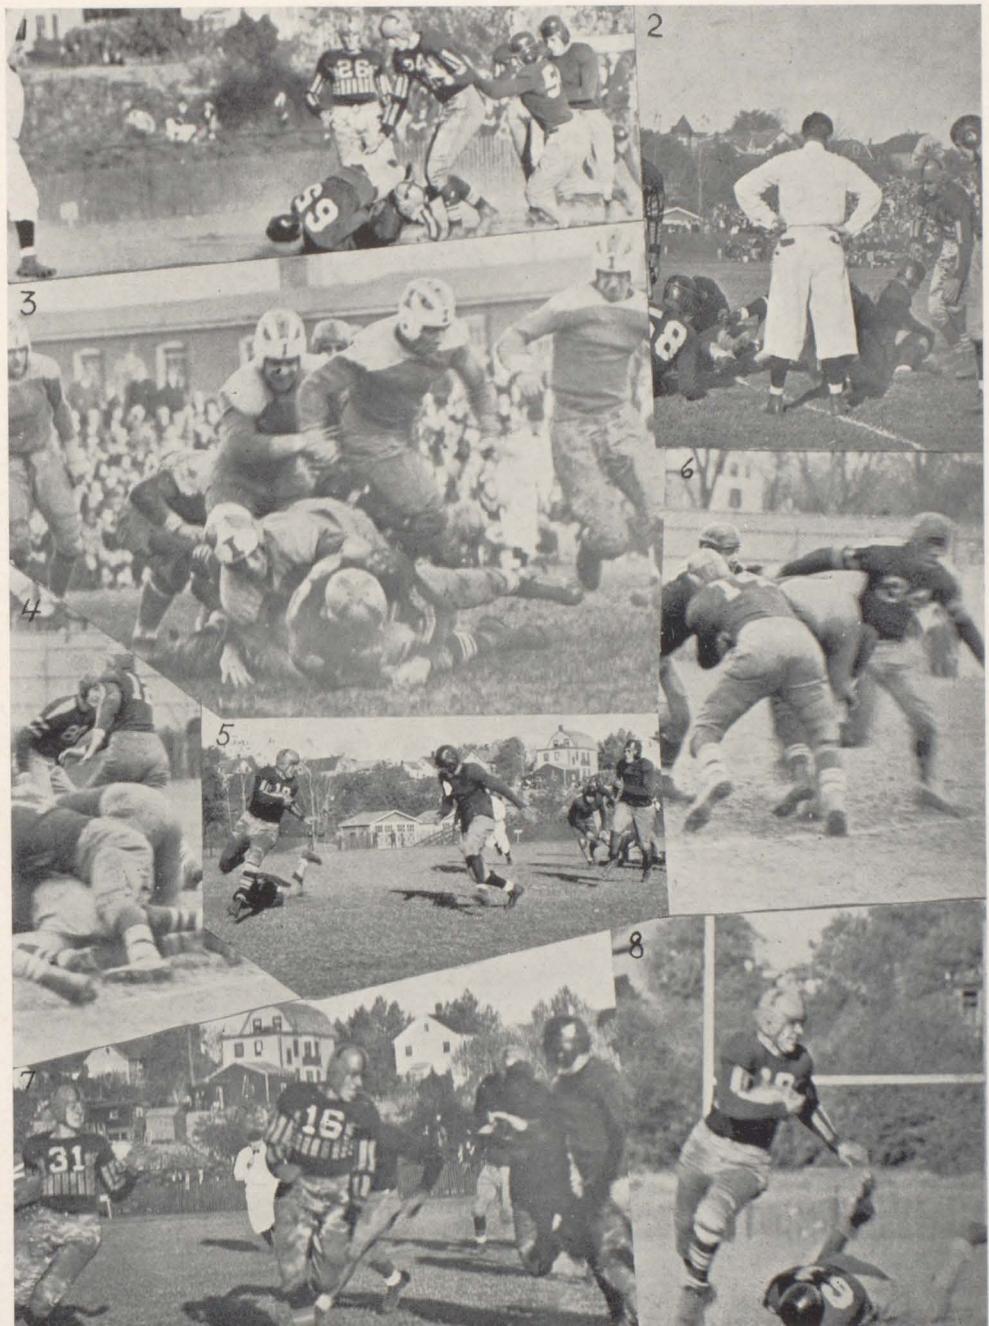

Tallying twice in the thirteenth annual contest, B. H. S. paved the way to another North Jersey Championship by the fine arts of football displayed in the 13—0 combat with Montclair, its annual Thanksgiving Day rival.

The keenest and most stirring action on the gridiron during the 1934 season was furnished in the battle with Collingswood for the scholastic supremacy of the state. With a 14—7 score, Bloomfield High again reigned as Champion of Champions.

Michael Kochel was chosen as tackle on the All-State team.

Crushing James Madison, 1934 New York City Champion, to a 41—0 tally, Bloomfield won its tenth consecutive conquest, and started Coach Foley's twenty-first year here.

As the war clouds floated away, the local line-up emerged victorious, defeating Belleville 13—0. The Yellow Jackets were held, as was the Brooklyn team, without a first down.

Another link was added to the chain, when the town gridmen white-washed Newark South Side by a 13—0. The blue and gold threatened the goal line of the red and gray for the first time in the season, when they made four first downs.

Paterson was swept over the falls with a rippling score of 32—0. This traditional battle supplied many long runs, and starred the impregnable line of defense of the Foley-men.

Next the Bloomfielders conquered Dickinson with a record of 26—0. The Jersey City lads were invaded by a brigade of backs zooming around end and crashing through the fore-wall.

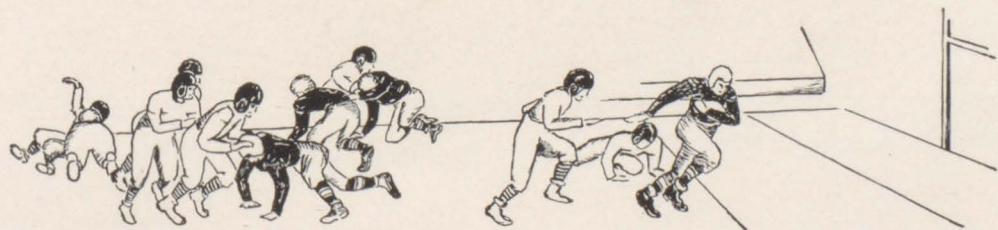

The snagging of three passes led to the 25—0 score in the third yearly contest with the Garfield Boiler Makers.

The home boys trounced Irvington 31—0, when they ran wild at Morrell Field before 10,000 wide-eyed observers.

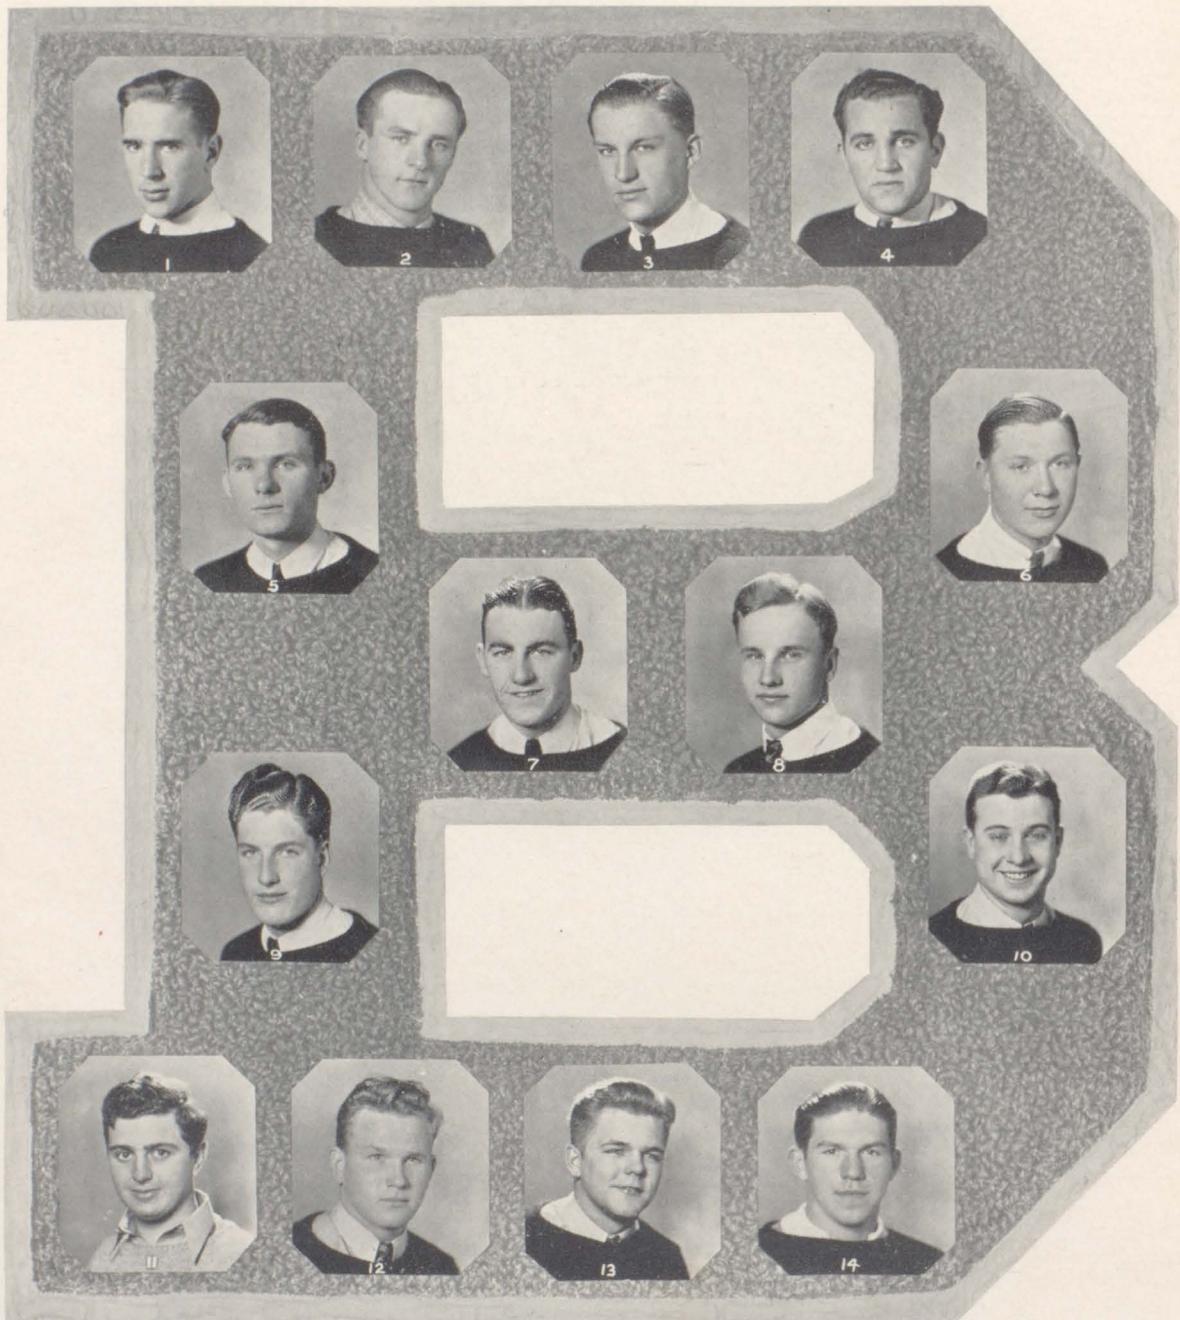

The ferocious little jungle cat shook loose again and clawed the Nutley gridders 13—0. A twenty-yard plunge through tackle made the final six points in the fight.

On Turkey Day the Mountaineers journeyed down into the Bengals' lair to be submerged 12—0 in one of the cleanest classics played during '35. Neither team created a major penalty throughout the contest.

Last year B. H. S. was honored by the selection of center, Louis Otterbein, and half-back, Malin Zergiebel, on the All State team. Lou Little of Columbia also chose Captain Otterbein as pivot man on the All-Metropolitan eleven.

Considerable success and prestige were gained by the nine in '35 when they won the Greater Newark Tournament. Much of this greatness may be attributed to that excellent battery combination, Henry Borowy and Raymond Baldyga.

The season was marked by many exciting pitching duels, spectacular catches, and unbelievable mid-field heaves to home plate by Frank Nelson.

Bloomfield was triumphant in every contest except the Irvington one. After beating East Side, Barringer, Verona, Morristown, Dickinson, Belleville, Nutley, Glen Ridge, South Side, and Columbia, B. H. S. was qualified to play Kearny in the first tournament at the Ruppert Stadium. The baseball team from here won this game, then conquered Verona, and moved up with Hillside to the finals. Before 8,000 enthusiastic spectators at the Newark field, the Bengals hit a 4—3 victory.

Thus another page was added to the many athletic glories of the school.

Henry Borowy and Frank Nelson were named All-State pitcher and fielder respectively.

A keen sense of personal loss is felt by the entire school and in particular by the baseball boys in the untimely death of Frank "Ozzie" Nelson. His athletic prowess was recognized by the Detroit Tigers, and while on his way South for a try-out with them, he met with a tragic accident.

Fairly well represented on the court this year, B. H. S. turned in the best record made in basketball in several seasons. The team won eleven and lost seven of the games.

The first meet, with West Orange, proved the most sensational, when the home town boys clinched a one-point victory in an over-time period.

The annual rivals, the Bloomfield College and Seminary and Columbia, were trimmed in the two next games.

It took Weequahic to turn the tables on the winning Bengal streak. After losing to superior Morristown, the home quintet scored a surprising victory over Orange.

The red and gray then bowed to Glen Ridge and South Side, but added Irvington, Verona and Morristown to its list of victims.

Later Nutley was trounced, and the local five lost to East Orange.

Glen Ridge made a futile effort for a double victory, but bit the dust in defeat to a scrappier outfit.

Concluding a difficult and gruelling list of seventeen tilts, Bloomfield scored impressive conquests over the Alumni and Gloucester High, of Massachusetts.

SWIMMING TEAM

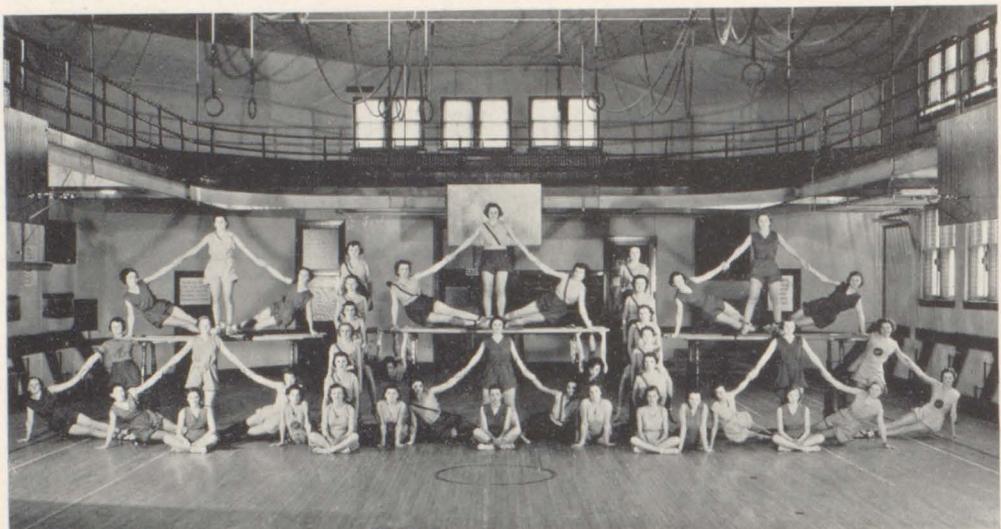

Bloomfield High has had a swimming team for the past three years. During this period the boys have made rapid progress under the instruction of Richard Cheadle, who has been annually producing a better team.

The first season, there was no official captain, but John Morgan undertook the leadership of the group. Because of inexperience and lack of practice, the team was able to win only four of its ten scheduled meets.

The second year, with Stephen Schuyler as captain, brought out new men and more ability. Despite handicaps they were able to finish the season with five victorious battles and five losses. At the end, an official banquet was held at which Donald Price was elected captain of the next year.

This past season has proved to be the most eventful of all. Eight out of ten meets were won and B. H. S. was represented in the State Swimming Championship. The team managed to gain third place in a four man, two-hundred-yard relay, losing first place by only a few seconds.

The Swimming Team in this school will continue to grow and advance, but the members will not consider themselves entirely successful until a state meet has been won.

GIRLS' GYM TEAM

Started in 1914 by Miss Edith C. Russell, present physical director, the Girls' Gym Team has gradually increased until, at the present time, there are 120 girls, 72 in the junior division and 48 on the senior team.

Character is the primary requisite of a member, with ability to do gymnastics secondary. Selected by Miss Russell, the girls first are placed in the junior section, and, provided personality and accomplishment warrant it, they are promoted after one year to the senior team.

Weekly practice starts in October in preparation for the annual exhibition given the following March. At this performance there are specialty tap, toe, and roxyette dances, club swinging, dumb bell drills, and tumbling, as well as regular apparatus work on the rings, parallels, ropes and horses.

At this time stars are awarded for meritorious gym work. The highest award, however, is a silver or gold star encircled with the words *Nobleness Enkindleth Nobleness*. These medals are given to girls for notable character, in addition to the performance of the highest degree of gym work. Those receiving the latter prize during the past four years have been: Theresa Galati, Elizabeth Perrine, Louise Marsh, Alma Sutton, Helen Mueller, Ruth Fielding, and Jean Compton.

At the end of the year girls B's are given to those Senior Gym Team members playing on the class basketball and baseball squads. Significant emblems are also presented to Junior Gym Team girls entering into these sports.
